PhD, RN, CNE, ANEF, FAAN

NurseTim[®]
INCORPORATED

In 2003 NurseTim[®], Inc. was founded by Dr. Tim Bristol with one goal – to be a resource for nurse educators and provide high quality faculty development solutions that are accessible to all programs.

As NurseTim[®] continued to grow, so did its passion to see not only faculty succeed, but students as well. We want students to not only be successful in the classroom, but on NCLEX[®] and, most importantly, in practice. In 2016, NurseThink[®], a brand of NurseTim[®], was born.

The graphic features a dark blue background with a subtle grid pattern. In the center is a large, faint lightbulb shape. Inside the lightbulb is a white stethoscope. Flanking the lightbulb are two yellow ECG (heart rate) lines. The text "NurseThink®" is in a bold, yellow, sans-serif font, and "NCLEX® Vision" is in a similar bold, yellow, sans-serif font below it.

NurseThink® NCLEX® Vision

FACULTY VISION

Faculty success is all about seeing students grow into professionals that make a difference in healthcare. Our vision is to stand next to faculty every step of the way. We show faculty how to use the NCLEX® test plan at every level of the nursing curriculum to create learning experiences that are meaningful and effective. Whether novice educator or experienced administrator, our team is there every step of the way.

STUDENT VISION

Students need to see reality so that they know they are focusing on the most important content and concepts. We help students save time studying by taking them to clinical in every clinical judgment workshop, NCLEX® Review, and coaching experience. Our vision is that students will be given the power to take ownership of their own learning by making their class/lab/sim time a clinical experience.

Clinical Judgment Exams: Retention & Readiness

These pre-developed exams have a Clinical Judgment focus that is essential to your program. Created by our team of testing experts and powered by ExamSoft®, your program will have reliable data. Integrated across the curriculum, faculty and students can make focused/just-in-time decisions for remediation, learning, and readiness for practice. Faculty and students use Strengths and Opportunities reports to adjust lesson plans, personalize study time, and focus simulation/lab/clinical learning experiences.

- ✓ Clinical Judgment Testing, Assessment, & Feedback
- ✓ Highest Quality Exams You Can Trust
- ✓ Includes National Benchmarks and Build Your Own

vClinical: Virtual Simulations

From Clinical Make-up to Exam Remediation to Clinical Judgment in every lecture, NurseThink® vClinical contains over 450 patient assignments requiring high-level nursing care. This Next Gen Learning tool is powered by Swift River and allows students to study and learn while virtually standing next to a patient in every class in the curriculum.

- ✓ Clinical Judgment Learning With Over 450 Patients
- ✓ From Med Pass to Acuity to Prioritization
- ✓ Next Gen Learning for Every Student

NCLEX® PreView & ReView

The PreView helps students in the first half of the program develop habits of studying that promotes Clinical Judgment.

The ReView is an NCLEX®-based clinical experience whereby students learn how to synthesize key concepts to provide patient care.

For each PreView/ReView, students get access to 10 weeks of Live Video Mentoring.

- ✓ Clinical Judgment Primer for Every Student, Every Semester
- ✓ Clinical-Based NCLEX® ReView

Our team of specialists have helped thousands of faculty and students change the way they learn and prepare to take the NCLEX®.

- ✓ Improve Ability to Take NCLEX®-Related Test Items
- ✓ Clinical Judgment for all
- ✓ Save Time Studying in Every Class
- ✓ Students Learn how to Learn and Discover What They Don't Know

Capitalizing on conceptual and constructivist learning, our team helps students develop habits of **prioritization** and **clinical judgment** in class, lab, and clinical while preparing them for the Next Gen NCLEX®.

Use as a stand-alone program or in conjunction with other NCLEX® Review programs already in use at your school.

Multiple Packages for any Budget

One or Two Days On-Site + Optional Services
